PROFILE

Seasoned .NET developer with expertise in C#, ASP.NET, and MVC. Seeking a challenging role to apply my skills and contribute to impactful projects.

EXPERIENCE

- Freshers

CERTIFICATIONS

- .NET Fundamentals

PROJECTS

1. Students Management System [.NET Framework]

Nov 2023 - Jan 2024

- Developed an intuitive Student Management System allowing distinct user roles for administrators, faculty, and students.
- Implemented secure login mechanisms and role-based access control, ensuring administrators have full system control.
- Faculty members can access and manage attendance records, while students are limited to viewing their individual attendance and results.
- Utilized [programming languages] to develop key features, including student registration, attendance tracking, and grade management.
- Demonstrated strong problem-solving skills through the development of a user-friendly interface and efficient database management.
- Received positive feedback from faculty for the project's innovation and functionality.

DECLARATION

I do hereby declare that the particulars mentioned above are correct to the best of my knowledge and belief.
